

# Android App design

Hand-drawn login screen design for an Android app. The screen is enclosed in a purple rectangular border. At the top, the text "Welcome to" is followed by a blue cloud-like shape containing a question mark, and then an exclamation mark. Below this, there are two rectangular input fields: the first is labeled "Username" and the second is labeled "password". At the bottom, there is a button labeled "Create account". Above the button, the text "New to" is followed by a small blue oval containing a question mark.

Fig. 1

Hand-drawn registration and navigation screen design for an Android app. The screen is enclosed in a purple rectangular border. At the top, the text "Welcome to" is followed by a blue cloud-like shape containing a question mark, and then an exclamation mark. Below this, there are two rectangular buttons: the first is labeled "Create an applet" and the second is labeled "Browse community". At the bottom, the text "Log out" is written.
